

UCSF Lactation Accommodation Program

UCSF faculty, staff and students have access to lactation rooms at 12 campuses. The UC San Francisco Lactation Accommodation Program ^[1] (LAP) is dedicated to helping those who are returning to work and continuing to provide milk..

Our goal is to provide you a clean and comfortable lactation room. All rooms are equipped with a multi-use hospital grade pump. Access varies among each lactation room. Please refer to LAP page for a guide to available UCSF Lactation Rooms ^[2]

For assistance accessing or locating a lactation room, please contact Lactation Program Coordinator, Caroline Wick, at lactationprogram@ucsf.edu or 415.502.3154. If a room or breast pump requires attention please notify Campus Life Services Facilities Services at 415.476.2021.

For your convenience, breast pump products (nursing bras, pump parts and collection kits) and other lactation support accessories to assist with breastfeeding are now being sold through the Mission Bay Friend to Friend gift shop ^[3].

Forgot your breast pump attachment pieces contact the Friend to Friend at Mission Bay Gift Shop ^[3]

(First floor of the Precision Medical Center Building (PBMC)/Gateway Building)
1825 Fourth St.
San Francisco, CA 94158
